

The map displays the North Atlantic Ocean with a grid of latitude and longitude. The x-axis represents longitude from 0° to 360°, and the y-axis represents latitude from 0° to 60°. Cruise tracks are shown as numbered lines (1-7) with various symbols (dots, crosses, etc.) indicating specific stations. Letters K, W, and S are placed along the tracks, likely representing different types of stations or data collected. A scale bar at the bottom indicates distances in nautical miles (0 to 1000). The map is labeled 'N.' for North and 'S.' for South.
