

The chart displays cloud patterns and counts across a grid of longitude (0° to 360°) and latitude (60°N to 60°S). The top of the chart is labeled 'AOUT' and 'JUILLET' with dates 8, 3, 29, 24, 19, and 14. The left side is labeled 'E.' and the right side 'W.'. The bottom is labeled 'S.' and the top 'N.'.

Cloud patterns are represented by various symbols and numbers:

- Cloud Count:** Numbers 2, 3, 7, and 19 are placed near specific cloud symbols.
- Cloud Symbols:** Various shapes representing different cloud types, including solid lines, dashed lines, and small circles.
- Cloud Patterns:** Several distinct cloud patterns are visible, including a large cloud mass in the upper left (around 10°N, 10°E), a cloud mass in the upper right (around 50°N, 350°E), and a cloud mass in the lower right (around 30°S, 350°E).
